Course Listing (December 2023) and Pricing

CPE On-line Workshop for all IASIS PMU registration holders

Booking at: cpeworkshop@independentbiologist.ie Please only respond to this email address.

Any one CPE Unit code may only be taken once every three years.

These workshops were run last in December 2020 and therefore open to all. Please check with your CPE Scheme organiser to see how many points you may require for this period. 50 IASIS points are required in total over 2023, however points are not tallied until the end of each two-year period so if you have a shortfall in 2022, you will have to make them up and add them to your 50 point requirement for 2023. The CPE Workshop Group operates in the Republic of Ireland and workshops are tailored to Irish Legislation & Topics and the Irish IASIS CPE Scheme. It may be possible to include British BASIS Prompt scheme members, but this must be made very clear within your application. These workshops are **not BASIS Prompt approved**.

Only 15 places available for each Workshop. Book you place now.

For On-line workshops Please have the zoom app downloaded and be familiar with its use.

Each Workshop will have a minimum cut-off point for attendees. The CPE Workshop Group reserves the right to cancel or postpone workshops due to inadequate number of bookings. Please do not pay until you have been issued with an invoice. Please be aware that we have moved banks due to the Ulsterbank closure.
